

CLASS / MODULE DIAGRAM

Freelancer Hiring Platform (Upwork-style)

LEGEND

- + Public Attribute
- Private Attribute
- + Public Method()
- Private Method()
- Association
- ◊ Aggregation
- .-> Dependency

NOTES

- All entity classes map to database tables (via JPA).
- Relationships show cardinality (1, *, etc.).
- Service and Repository classes are part of implementation (not shown here).
- Security (JWT) is applied at API layer.
